**March in National Craft Month**

During National Craft Month, crafters get creative with their supplies. Artisans set to work on a design, and different craftspeople put their skills together to bring an idea to life. From paper and wood to fabrics, paint, and metal craft, the month is dedicated to creativity and inspiration. Whatever motives you, take your craft from idea to reality this month. If you've been thinking about trying something new, sign up for a class.

Learning a craft offers many benefits. Expressing one's creativity provides stress relief and can lower blood pressure much like meditation. There's natural positive reinforcement from learning a new skill. With each new step learned, the satisfaction from gaining the skill is rewarding. Most crafts require fine motor skills. Crafts teach young children these skill as well keep ours sharp as we age.

Crafting with a group becomes a social event. Gather with friends and complete a larger project or several smaller ones. Making items for charity, such as blankets for premature babies or activity bags for the children of veterans, makes your efforts that much more valuable. When creativity becomes stress relieving and generous, it fills the soul.
